

SCUBAPRO

S-TEK DONUT WINGS

S-Tek Donut Wings offer BPW divers reliable buoyancy control regardless of their diving position. Their durable rounded profile allows for smooth, controlled air migration.

S-Tek Donut Wings are available in 3 lift capacities: 13kg [30 lb], 18kg [40 lb] and 27kg [60 lb].

■ 1000D CORDURA OUTER SHELL AND 500D CORDURA INNER BLADDER

Deliver industry leading abrasion resistance and feature ecofriendly and color fast Dope-Dyed Fabric.

■ DURABLE YKK ZIPPER

Can stand up to years of use.

■ IMPROVED ROUNDED PROFILE

Reduces air trapping and helps ensure smooth, controlled air migration.

■ ELLIPTICAL EPDM CORRUGATED INFLATOR HOSE

Highly durable hose that's crush resistant and flexible. Features an exclusive saddle for LP hose retaining band.

■ 3 LIFT CAPACITIES

13kg [30 lb], 18kg [40 lb] and 27kg [60 lb].

■ TEK BPI

Designed by SCUBAPRO, the Tek BPI is based on a K-style layout offering an extremely robust and lightweight design for smooth balanced air control during inflation/deflation.

- Easy to control balanced inflation button.
- Soft mouthpiece can be easily rotated on the BPI body for comfortable oral inflation.
- Ergonomic design for easy handling.
