

SCUBAPRO

S-TEK EXPEDITION REELS

Evoking the distinctive design of SCUBAPRO's classic G250 second stage, the S-Tek Expedition Reels are rugged throughout with ergonomic features that make it easier to let line out and retrieve it without snags.

■ DURABLE CONSTRUCTION

Marine-grade anodized aluminum frame, injection-molded fiberglass reinforced nylon drum and stainless steel axle and screws.

■ ANTI-SNAG STAINLESS STEEL LOCK-DOWN SCREW

Improves ergonomics while reducing the risk of line snags from its' location at the opposite end of the handle from the line exit.

■ ANTI-RELEASE EYELET

For the bolt snap ensures security.

■ ERGONOMIC ANTI-SNAG WINDER

Allows for problem-free line retrieval.

■ INTEGRATED STEALTH LINE CLEAT AND REMOVABLE TORBEN-LOC LINE ANCHOR

Provide two options for securing the line-end to avoid losing it through the line guide exit.

■ LINE CAPACITY GAUGE

Conveniently lets you know how much line has played out.

■ TWO LINE LENGTHS

100m or 200m.

■ STAINLESS STEEL BOLT SNAP INCLUDED
